Anti-Bullying Specialist*

Dear Keith,

Thank you for presenting three separate internet/technology safety assemblies to our school district this past March. We appreciated your flexibility with scheduling and how you tailored your presentations to fit the needs of our community.

Although portraying the same safety message, each student assembly was developmentally appropriate. The students enjoyed how you mixed information with personal stories and humor to keep them interested and engaged.

Having the parent presentation prior to the student presentation allowed the parents an opportunity to see/hear the same message. You were very responsive to parent questions and concerns, which everyone appreciated.

We are looking forward to seeing your updated presentation in the fall.

Respectfully,

Jenn Crow  
Guidance Counselor  
Rumson School District
